

NK Productions Customizes Weddings & Events, Including Those with Green Focus

Nicole Kaney's NK Productions recently opened its doors with a focus on designing wedding events that are elegant, modern, and stylish while working with clients from a range of budgets. Using fun, classic, and elegant ideas, along with comprehensive industry knowledge, NK Productions tailors professional expertise to clients' wants and needs. Events of every budget and any size will be fully accommodated.

Nicole Kaney has been in the event-planning business for more than six years, including careers at Mattison's Culinary

Group and Whole Foods Market here in Sarasota. She has combined her professional experience and personal passion for event planning to launch NK Productions, a full-service wedding and event planning company.

One aspect Nicole is focusing on is "green" weddings and incorporating ecological friendliness into the events she plans, reusing and being mindful about the prod-

ucts clients purchase for their events. Nicole also stresses the importance of buying locally, such as soy candles, organic wines and beer, cotton invitations, the use of plants instead of flowers, donations to a charity instead of gifts or favors, and the use of a catering company that uses all natural and organic ingredients. For more information, contact Nicole at 504-2889 and at nicole@nkproductions.net.
